**County Map.**  
Mr. Thos. M. Lake has received his maps of Newberry County from the lithographer. They are well executed, and will be found very useful. The roads, streams and the principal points of interest in the County are given with great minuteness. Mr. Lake did not make the map from actual surveys, but from the best information he could get otherwise as to locations and distances. The scale is one inch to the mile. The *HERALD* office is under obligations to Mr. Lake for one of the maps.

**The Augusta Trade Issue.**  
Issued the 16th by the *Chronicle and Constitutionalist*, beats anything of the kind we have seen. It gives a fine bird's-eye view of the city. Besides many prominent features in detail. This issue shows that Augusta is not only holding her own, but is making long and rapid strides in the line of progress. She is ahead of all other Southern cities in cotton factories, and the enterprise of her people seems to know no limits. As a cotton market she is pre-eminent. This Trade Issue is an honor to the city and to the staunch and reliable newspaper that got it up.

It is a well known fact that Rheumatism originates from a disordered or impure condition of the blood. For October is to hand in an enlarged form and greatly improved in its entire makeup. Its reading matter is furnished by some of the best agriculturists of the country, and the subjects are fully illustrated by fine engravings. Neither money nor labor is spared in making the *Agriculturist* the best farmers' and planters' journal in the United States. It is published monthly by Orange Judd Co., 751 Broadway, New York.

Best ever made, Emory's Little Cathartic Pills, pleasant to take, sugar-coated, no griping, only 10 cents a box. Of Druggists or by mail. Standard Cure Co., 114 Nassau Street, New York. Jun. 1, 22-3in.

**Woman's Missionary Society.**  
We have received from Mrs. J. W. Hammett, Corresponding Secretary, a copy of the 4th annual report of the Woman's Missionary Society of the Methodist Church South. In the past four years this Society has grown wonderfully, and is doing a great work. The societies now number 1,112, with 25,556 members. The collections for the past year amounted to \$25,609.44. The Society supports two missionaries in China, one missionary and one assistant in Brazil, and two in Mexico. The Society in this State contributed the past year \$3,181.52. These noble women are doing a noble work for the Master.

**AMES' TURNOUT, N. C., Mar. 7, 1882.**  
Capt. James F. Johnson, Charlotte, N. C.: DEAR SIR—Your 29 horse power Portable Bay Steamer Boiler and Engine is giving entire satisfaction. We think the Bay Steamer Boiler and Engine the best we ever saw in this country. It is running a No. 2 saw mill, with a 50 inch saw. We never lack for steam, and can cut 1,000 feet of inch boards per hour. It is all you claim for it—a full government standard boiler and engine—and we do not hesitate to recommend it to any one wanting a good engine and boiler. Yours truly, JAS. A. BENNETT & CO.

**Caution to Farmers.**  
Col. J. N. Lipscomb, candidate for Secretary of State who is one of the best farmers in South Carolina, told us last Monday that one year he lost sixteen horses from feeding them with corn that had been overhauled by a fresher in September. It gave them "blind staggers."

The same corn, he said, if it has not been submerged long enough to become soft and sour, will make good meal and will not injure any other animal. He says he cannot tell why it is so injurious to the horse; but he knows it is so.

While many of our farmers corroborate the Col's statement, there may be some to whom it may be valuable information.—*Union Times*.

**Good Cotton Picking for Children.**  
Lee Sligh, a 11-year-old son of Rev. J. A. Sligh, and Will Setzler, a colored boy of 12 years, picked Monday, 18th, from half an hour after sunrise to sunset, 410 pounds of cotton—the former 206 pounds, the latter 204. The cotton was gathered remarkably clean for children.

A little crowd consisting of the two boys above named and Wilber Sligh, aged 16, (who picked 215 or 220 pounds), two other boys of Mr. Sligh, aged respectively 7 and 9, and two colored children of about the same age, picked that day nearly 900 pounds.

Over 600 pounds of this cotton was gathered from one-acre patch, from which had been previously gathered over 400 pounds, and there will be open on it yet some 800 or 1,000 pounds. This one acre was subsoiled and very highly manured, and was planted with large-boll cotton.

In this section cotton is heavier this fall than ever known before; owing, no doubt, to the favorable weather and rains for maturing the fruit.

**The Orphans Need Your Help.**  
In the Thornwell Orphanage, Clinton, S. C., there are thirty-seven children. They are good deservings boys and girls, gathered from five different States and six different denominations of Christians. They are supported by the hand of God's people. They do all that children could reasonably be expected to do for themselves—all the cooking, washing, ironing, gardening, etc., for the entire establishment.

And you, our Orphans need your help. Our Treasury is empty. Nothing has been received for their support for fifteen days. A gift from you, kind reader, is needed at once. Your generous assistance may also be secured in enabling us to decide on the twenty-eight applications for admission now before us.

One dollar will support, clothe and educate one of these orphans for a week. Five dollars for one month. Sixty dollars for one year.

Send your gift by post office order to our Treasurer, Wm. B. Bell, Esq., Clinton, S. C. Wm. P. Jacobs, President.

**Malaria, Chills and Fever, and Bilious attacks** positively cured by Emory's Standard Cure Pills—an infallible remedy: never fails to cure the most obstinate, long-standing cases where Quinine and all other remedies have failed. They are prepared expressly for malarial fevers, double chills, two kinds of Pills, containing a strong cathartic and a chill breaker, sugar-coated, contains no Quinine or Mercury, causing no griping or purging; they are mild and efficient, certain in their action and harmless in all cases. They respectfully cleanse the system, and give new life and tone to the body. As a household remedy, they are unequalled. For Liver Complaint, their equal is not known; one box will have a wonderful effect on the worst case. They are used and prescribed by Physicians, and held by Druggists every where, or sent by mail 25 and 50 cent boxes. Emory's Little Cathartic Pills, best ever made, only 10 cents. Standard Cure Co., 114 Nassau Street, New York. Jun. 1, 22-3in.

Last year and for several years past the railroads charged a uniform rate for shipping cotton—so much per bale, whether the bale was heavy or light. In consequence the cotton-buyers knocked off a certain amount for bales under 400 pounds weight. We understand they still knock off for light bales, notwithstanding the occasion for doing so have ceased to exist.

We were shown a dish of beautiful, golden butter last week that was made from the milk of a Jersey heifer that has never calved. The heifer belongs to Mr. Reagin, is 19 months old, and is due to calve in December. She gives three quarts of milk a day, and the milk, and the butter made from it, are very rich. She is a calf of Mr. McCaughrin's "Lizzie Kirke" by Mr. Reagin's "Jupiter."

**A Beneficent Action.**  
The miserable looks and feelings of those confined at desks or work tables, are caused by weak Stomach, Kidneys or Bowels. Parker's Ginger Tonic without intoxicating has such a beneficial action on these organs and cleanses the poisonous matters from the system, that rasy checks and good health are soon brought back again.—*Express*.

He says that he was sitting one day in the telegraph office at work when several cowboys rode up to the station and commenced shooting. They killed the agent, Wallie, out through the window, and took the train for South Carolina.

The Coming Monster Exhibition—S. H. Barrett & Co's New United Monster Railroad Shows.

Newberry, Sept. 20th, is the date announced of this great amusement enterprise, which has been received with much marked favor, and decided approval wherever its mightiest of canvases have been erected. A contemporary tells us that from the entrance of its vast zoological garden to the exit of its Rome-ecolping arena, everything challenges attention and admiration. The elegance and beauty of the rum with which every department of the great confederation is conducted secures the patronage and approval of the most refined, and attracts numbers who are not in the habit of attending public entertainments of this description.

The comprehensiveness and infinite variety and rarity of its grand zoological collection will delight the naturalist and amaze, amuse and instruct all. It is a collection reflecting display of the mightiest and rarest beasts of the tropics and jungles; the curious and beautiful birds of a thousand forests and isles, and even the mysterious depths of the ocean and the marly beds of tropical rivers have been explored to secure gigantic amphibian and reptilian menageries.

In the superb circus a colossal company of the most eminent bareback riders, gymnasts, athletes, specialty notables, famous fools and astonishingly-educated animals present a novel and brilliant succession of wonderful feats and imitations, from the double somersaults over the towering elephants to the acrobatic antics of the brute performers, while the great Electric Light is a whole show alone, as indeed is each of a dozen other extraordinary features named in the advertisements.

**A Jail-bird Captured.**  
Ansien Weaver, colored, who broke jail, where he was confined on a charge of burglary and larceny, was captured last week in Atlanta, and was brought back Saturday by Chief of Police Fellers and assigned to his old quarters.

Weaver was working in Atlanta in the ice cream saloon of Massa & Company. When Captain Fellers greeted him he searched his trunk and found in it a box of sugar, which had been stolen from his employers. They said they had also missed some silver and towels; and after Capt. Fellers got home he got out a search warrant and searched the house of a woman that Weaver had been living with before his first arrest. He found a dozen solid silver spoons, fourteen linen towels and a quantity of sugar that Weaver had shipped from the ice cream saloon.

When Weaver was first arrested here on the charge of stealing corn, oats, &c., from Dr. Gilder, several sides of meat were found in his possession which was supposed to be a part of that stolen from a car at the depot.

Weaver has been to Augusta, Knoxville, Chattanooga, Nashville and Montgomery since he broke jail, and had about eight dollars when recaptured.

37 Walker St., Baltimore, Dec. 1881. For six years I have been a great sufferer from Blood Disease, Dyspepsia and Constipation and became so debilitated that I could not sustain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing *Brown's Iron Bitters* advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

Mr. L. F. Garvin.
